PROFILE

Recent Full Stack Bootcamp graduate with 14 years experience working remotely for a non-profit providing high-quality closed captions for live television. Fell in love with coding during school and acted as project manager for three different successfully launched web apps.

WORK EXPERIENCE

Live Voice Writer

National Captioning Institute   2008-2022

- Provided closed captions for primarily live television in real time using voice recognition software and IP connection software.
- Successfully worked remotely for over 12 years self-motivating and self-assessing.
- Provided captions with an average of over 98% accuracy rate.
- Was the only voice captioner skilled enough to provide captions for G4, the former gaming and tech channel.

Live Streamer & Podcaster

                                                                 2012-Current

Self-Employed

- Designed and executed weekly video stream content on Twitch.tv, maintaining a production schedule for over 10 years.
- Utilized social media and Discord server to maintain community engagement.
- Edited and published weekly video content on YouTube, Tiktok, and other social media outlets.
- Graphic design and promotional marketing to drive live event attendance.
- Built a steady monthly income stream from scratch.
- Grew average viewership over 400% over 5 years.

PROJECTS

Learn With Flash!

- Front-end application that allows users to utilize both created and custom flashcards to facilitate learning for all ages.
- Deployed URL: https://crothos.github.io/flashcard-app/
- Repo URL: https://github.com/Crothos/flashcard-app/

Budget Buddy

- Full-stack application using a SQL database to help users track expenses.
- Deployed URL: https://financial-planner-uta-bc.herokuapp.com/
- Repo URL: https://github.com/Crothos/financial-planner/

Git Your Life Together

- Full stack application using a NOSQL/MongoDB database that allows users to create and track projects, breaking them down into completable steps, integrating ChatGPT.
- Deployed URL: https://git-your-life-together.herokuapp.com/
- Repo URL: https://github.com/JessicaIOrtega/GIt-your-life-together-/
